

Dear PhD students and Researchers,

The 9th Journées des Doctorants (JDD 2017) will be held on **13th and 14th June 2017**, at **UFR Sciences et Techniques, Université de Rouen** (Site Madrillet).

This event is organized by ADDED and OPTIC associations, in partnership with ED PSIME and MIIS for their PhD students from Université de Rouen, Université du Havre and Université de Caen. It gives a unique opportunity to PhD students to present their work either through an oral presentation, or a poster. **Researchers** can attend this event as spectators.

During this event, there will be several oral and poster presentation sessions, and a small “**Forum des métiers**” will be organized to enlighten PhD students about different career paths they can choose after their thesis. A **cocktail party** livened up by a music band will be offered at the end of the first day.

You can find a draft of the event’s planning here: <https://goo.gl/9T2ziu>

This year, for the first time, the JDD will be a two-day event to allow for more PhD students to participate. A **small registration fee of 20€** will be asked of **everyone attending the event** to help cover for the event expenses. The registration fee, but also the travel fees and hotel fees for participants not working in Rouen, can be paid by your respective labs through a standard **mission order**.

If you wish to participate in this event (spectator or speaker) please register by filling the following **Google Form** before the **17th May**: <https://goo.gl/2q7L1o> (**registration is mandatory**). **As of now, you have nothing to pay to register !**

You will have until the **26th of May to pay the registration fee** to ADDED, in cash, bank transfer or by check. ADDED’s billing information (**SIRET** number, **RIB** ...) is available on our website, and on the “Informations de payement” pdf file.

Unfortunately, **since the number of oral presentations is limited** by the duration of the event, we might not be able to accept every PhD student that wishes to make one. If we’ve exceeded our quota and can’t fit more oral presentations, you will be able to **register as a spectator or as a poster presenter**. There is also a quota for poster presentations, but we can accommodate more students for posters compared to oral presentations.

Here are the **event’s instructions**:

- Oral presentations are only allowed for **2nd and 3rd year PhD students**, but there are **no such restrictions for poster presentations**.
- To be able to present your work during this event, please mail us the abstracts at organisationjdd@gmail.com by **May the 17th**. Here are the templates for formatting your abstract: <https://goo.gl/eYx6Xb> (Zip archive).
- You can make your presentation either in French or in English. We will send you the templates and logos necessary for your presentation (or your poster) later on.

We kindly wish to remind everyone that **the JDD is a science popularization event**: researchers from many fields will attend, so make sure that your abstract, presentation (or poster) can be understood by colleagues from other laboratories, without “romanticizing” it too much.

You can **find all the updated information about the event** on our website (<http://association-added.fr/jdd2017-en/>) or our Facebook page (<https://goo.gl/oKcpNd>). Do not hesitate to share this event with your friends. Do not hesitate to contact us for more information at organisationjdd@gmail.com or through the Facebook event page.

Kind regards,
The JDD 2017 Organization team.
